### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Benjamin Erlick on 09/20/05.

The application has been amended as follows:

A) In claim 11, line 22, after the word "burning", change ":" into --- ; ---.

B) In claim 11, line 23, enter ---

1) wherein said combustion heat means comprises:

i) atomizer means for atomizing such environmentally hazardous waste oils prior to combustion. --- .

C) In claim 23, line 25, after the word "burning", change ":" into --- ; ---.

D) In claim 23, line 26, enter ---

1) wherein said at least one combustion heater comprises:

i) at least one atomizer for atomizing such environmentally hazardous waste oils prior to combustion. --- .

## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: With respect to claims 1 and 12, the prior art fails to disclose, in combination with all the limitations, the allowable subject matter indicated in the Office Action sent on 05/27/05, a combustion heater, which has an atomizer for atomizing the waste oils prior to combustion and an igniter for igniting the waste oils after the oils have passed through the atomizers. It would not have been obvious to combine a fourth reference to reject such claims due to hindsight and reconstruction of the Applicant's invention. With respect to claims 11 and 23, the prior art fails to disclose, in combination with all the limitations, the allowable subject matter indicated in the Office Action sent on 05/27/05, a pump for pumping the waste oils from a holder to the combustion heater, a flow regulator for regulating the flow volume of the waste oils being pumped, a pre-heating structure for pre-heating the waste oils prior to burning and an atomizer for atomizing the waste oils prior to combustion (see Examiner's Amendment). With respect to claim 22, the prior art fails to disclose, in combination with all the limitations, the allowable subject matter indicated in the Office Action sent on 05/27/05, a combustion heat produced by the heater being of a direct flow and part of the primary heat exchanger being

positioned to be in thermal communication with the direct heat flow and a primary heat exchanger directing a heat flow to a secondary heat exchanger.

With respect to claim 23, the prior art fails to disclose, in combination with all the limitations, the allowable subject matter indicated in the Office Action sent on 05/27/05, a power site having an electrical circuit and generating power from heated air and liquid and the combustion heater having a capacity specified in the claim and venting the combustion gases when the combustion of waste oils take place.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
